

10 August, 2013

This device (version 2) is designed to program keys for HONDA/ACURA cars. You can program genuine key as well as transponder. Key learning procedure takes approx 10 seconds!
This version does not contain counters or any other restrictions.

HONDA MODELS:

- Civic (2006 - 2011)
- Accord (2003 - **2013**)
- Pilot (2003 - **2013**)
- CR-V (2002 - 2011)
- Legend (2004 - **2012**)
- Element (2003 - 2011)

ACURA MODELS:

- MDX (2001 - **2013**)
- TL (2004 - 2011)
- RDX (2007 - **2012**)
- CSX (2006 - 2011)
- TSX (2004 - **2013**)

Key programming procedure:

1. Insert the key.
2. Turn on the ignition.
3. After 5 seconds, plug the device into the diagnostic connector. Red LED flash.
4. After about 10 seconds you will see the green LED.
5. Turn off the ignition; remove the device from the diagnostic connector.

Transponder programming procedure:

1. Keep transponder in the center of ignition lock.
2. Turn on the ignition.
3. After 5 seconds, plug the device into the diagnostic connector. Red LED flash.
4. After 2 seconds you will see the green LED.
5. Keep turning ignition lock on/off until immobilizer indicator goes off the on the dashboard (about 3 or more times).
6. Turn off the ignition; remove the device from the diagnostic connector.

Errors:

1. Blinking green LED - key programming failure.
2. Blinking red LED - the procedure is interrupted.

Note:

Device button must be pressed if your car released before 2008.

Attention! The device is not intended for illegal use.
